

Some great advice from the Oral Health Foundation:

How to keep your smile safe!

“The average person in the UK spends hundreds of pounds each year on dental care.

In recent years, there has been a greater desire for a smile that not only feels healthy but looks good as well. This has led more people to consider treatments that improve the appearance of their smile.

But are the correct choices being made?

There is a growing concern about the number of quick and cheap dental solutions on the market. These are often found online and lead to people performing their own dental work at home.

This can be highly dangerous and could put your health at risk.

That's why the Oral Health Foundation have launched Safe Smiles - a charity campaign by the that gives you unbiased, trusted and expert advice about dental treatments.”

Staff Pumpkin Carving Competition!!

Staff here at Lars Christensen Orthodontics really entered into the 'spirit' of Halloween this year. If you were visiting the Practice over half term, you may have spotted our marvellous carved pumpkins on display in the Waiting Room.

Staff were split into two Teams, led by Catherine and Jenny and visitors to the Practice were invited to take part and cast their votes.

I think you'll agree that both teams have created wonderful and imaginative pumpkins.

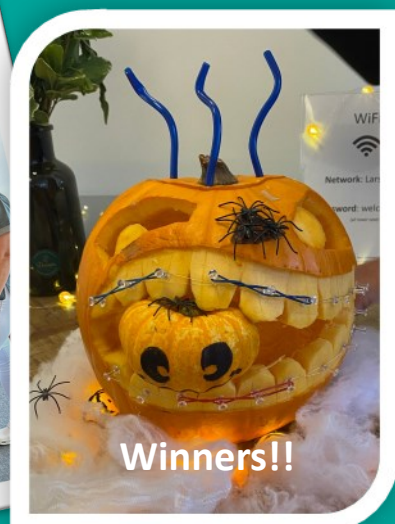

We can now reveal the winners!

Well done Catherine's
Team:

Sharon, Anna B,
Di & Evisi

Thank you to those that
voted and to all staff for
taking part...
